Dear Parents,

Please note that we have decided to offer both History and Geography as additional IAL subjects in the hope that our students would combine Humanities in the subject offering.

Accordingly, Advance Level History will be offered under Section 2 and Advance Level Geography will be offered under Section 4 in the subjects offered for the academic year 2026/2027. However, we will take a final decision based on the number of students who will opt for these subjects.

The revised subject selection form is also shared herewith.
